

# LV Fuse Holders, BS Type

## Specifications

**Description :** Fuse holders for BS type LV industrial fuse links, clip on and bolted type for wide variety of applications.

### Ratings :

Volts : 660 V / 550 V ac  
Amps : 20 Amps - 125 Amps  
Breaking Capacity : 80 kA  
Class of operation : gL / gG or aM  
Rated Frequency : 50Hz / 60Hz

**Material :** Industrial grade non hygroscopic, phenolic moulding and corrosion proof metal parts.

**Mounting Type :** Screw / Stud / Busbar

**Applications :** Lighting & heating equipment, motor protection, control equipment & circuit protection,

**Standards/Approval :** Comply with IEC 60269, BS 88 and IS 13703. ISI marked (except for LA/LD)

## FUSE HOLDER SELECTION CHART

Type	Current Range	Fuse Type	
20-FA / FB / FD	2A - 20A	NSD	Clip-on
32-FA / FB / FD	2A - 32A	NSD	Clip-on
HA / HD	2A - 32A	AAO / HO7-660	Bolted
KA / KD	35A - 63A	BAO / KO7-660	Bolted
LA / LD	32A - 125A	CEO / L14-660 DEO*/M14*-660	Bolted

\*125A only
