

BUSSMANN SERIES

Same great products, with a different look

Eaton offers more possibilities and powerful solutions to meet your needs.

As part of Eaton, we continue the long-standing tradition of providing fusible circuit protection and electrical safety solutions that protect equipment and enable reliable, efficient power distribution.

As we embark on our next chapter, Bussmann by Eaton becomes Eaton while our products become Bussmann series products.

We offer the same great products you rely on, with a different look.

Watch for Bussmann series products beginning July 1, 2015.
